

INDUSTRIAL TRAINING EXHIBITION (ITREX) 2018

Industrial Training PEP Talk from En. Mohd Khairul bin Abdul Rahim which is general manager from PPK Tanjung

Last week, on 25th November our faculty had organized an event which is Industrial Training Exhibition (ITREX) 2018. It involved diploma and bachelor students that had done their industrial training during their semester break. It was held at Dewan Seminar 5 and 6. This programmed gives students a sense of enthusiasm about their future careers. Indirectly, especially final year students that will finish their studies, they will face the real world of the working environment and it can provide guidance for them. There is the implementation of some objectives that can be achieved through this programmed which is to train students in communication skills such as nonverbal communication which is physical appearance, gestures and eye contact, be a good listener and providing quick feedback, negotiating with others to achieve the result by respect others point of views and so on. There is also Industrial Training PEP Talk from En. Mohd Khairul bin Abdul Rahim which is General Manager from PPK

Students registration from diploma and bachelor students at Dewan Seminar 5 & 6

Participants, VIP, lecturer and committee members gather after ceremony event.

Students evaluation from our lecturer from Uitm Jasin about their internship activity
