KEUSAHAWANAN PELAJAR SEMPENA EKSPLO SELANGKAH KE UiTM

The program was first introduced to provide participants with the opportunity to learn from their experiences, knowledge and expertise on agricultural business. The planned program will be held for 3 days from 29 March, 2019 until 31 March 2019 UiTM Shah Alam. Estimates of the participants will be comprised of 10 students. This program is seen to highlight the visibility of the Faculty of Plantation and Agrotechnology among business and outside entrepreneurs.

OBJECTIVE

- ◇ To train and hone graduate skills in the field of agribusiness to produce creative and innovative agricultural entrepreneurs.
- ◇ Creating a high level of competitiveness amongst graduates in farming business and expose the graduates about how to generate high income through the field of agribusiness.

Vice Chancellor visit FPA booth and taste the fresh fruit

This program also to introduce more about opportunities for students to gain business knowledge from local entrepreneurs as well as from government agencies. Produce entrepreneurs who produce top branded product, high quality, agriculture-based products globally. Establishing a highly competitive entrepreneur in producing high quality and prestigious output capable of utilizing optimum and innovative agricultural resources on par with developed countries.

Lastly, this programme should be continued with other international universities to broaden up the networking of Faculty of Plantation and Agrotechnology. In result, this programme can enhance student entrepreneurship activity and generate income to student.
